

SECURITY OPERATIONS CENTER as a SERVICE (SOCaaS)

SERVICE OVERVIEW

Put Legato Security's state-of-the-art Security Operations Center to work for your organization. Legato's staff of cybersecurity experts detect, analyze, and report on security events within customer environment. With Legato's SOCaaS offering, clients bring their existing tech-stack to us. No need to switch SIEM provider or any other technology currently installed in the client's organization. Our technology-agnostic approach means minimal onboarding time and costs coupled with the 24/7/365 protection of expert security analysts orchestrating a robust system of monitoring, alerting, and reporting.

SERVICE CAPABILITIES

MANAGED SECURITY 24/7/365

Legato Security's U.S.-based security staff provides security every minute of every day.

DETECTION, TRIAGE, AND REMEDIATION

Legato Security takes active steps to stop threats in their tracks.

ACTIONABLE REPORTING

Threat intelligence delivers a deeper understanding of your systems and events.

CLOUD-BASED & SCALABLE

Legato Security's protection scales with the growth of customer organization.

BUSINESS OUTCOMES

SUPPORT EXISTING RESOURCES

Legato Security's SOC is available 24x7x365 to support and enable customers' existing security teams.

STREAMLINE DAY-TO-DAY

Legato Security's SOCaaS reduces alert fatigue - giving teams time back in the day to focus on business critical tasks.

REDUCED MEAN-TIME-TO-REMEDiation

Legato Security's SOCaaS aggregates threats across the network, providing visibility and context to respond to threats.

INCREASED OPERATIONAL EFFICIENCY

Automate routine tasks like log management, threat detection, and response to ensure smooth daily operations.

ONBOARDING

Legato Security will deliver work with the customer to deliver a hands-on, onboarding strategy.

DEPLOYMENT

Once the appropriate access, controls, and policies are in place, Legato Security will deploy your security platform.

OPERATIONS

24x7x365 monitoring, active alert detection and analysis, and real-time remediation.

REPORTING

Regular reporting on events, remediation, and analytics help customers harden their security infrastructure.

WHY LEGATO SECURITY SOCaaS?

FULL SERVICE SOC

Legato Security's SOC operates 24x7, ensuring that our customers are protected from cyber attacks every, of every day. Designed to augment and support a customer's existing security team, the Legato Security SOC will:

- Detect, triage and correlate every alert
- Prioritize threats for remediation, saving customers time and money
- Respond and remediate threats on behalf of the customer

LEADING TOOLS AND PROCESSES

Legato Security's vendor agnostic approach means that our SOC will manage and optimize a customer's existing set of security tools, eliminating the need to rip and replace their original investment.

- Immediate ROI by leveraging existing tools and pairing them with a team of security experts to streamline operations
- Flexible architecture and system integrations
- The ability to select best-of-breed technologies to compliment your existing security solutions

WE SCALE WITH YOUR ORGANIZATION

Legato Security's open security platform allows us to build and scale a security solution that fits your business now, and in the future.

- With services that range from strategic and advisory services through fully managed network security, Legato Security has a service for any size organization
- Select the appropriate tools and solutions for your organization current needs
- As your organization matures, Legato Security will be with you every step of the way by creating a tailor made security plan that scales with customers' needs

THE VALUE OF SOCaaS

ALWAYS-ON

24/7/365 monitoring means customers' coverage isn't limited to business hours.

ACTIVE REMEDIATION

Legato Security actively mitigates, isolates, and eliminates threats as they occur.

SAVINGS

Working with Legato Security means lower overhead and no need to recruit, train, and retain security staff.

SECURITY

Legato employs a 100% US-based security staff who use the most sophisticated monitoring tools available to keep client networks and data assets safe.

"Legato Security's SOCaaS helped our team eliminate alert fatigue and gave our team some much needed breathing room."

- SOC Analyst, Technology Industry
